

STRATEGIC SOLUTIONS.  
TECHNICAL EXPERTISE.  
GLOBAL IMPACT.

## CONTINGENCY OPERATIONS

LBS supports military operations worldwide specializing in the performance of airfield operations, fuel services, vehicle MRO, & power generation and distribution.

## OUR SERVICES

Our capabilities ensure cross cutting business lines by combining installation support, fuel, and power operations, as well as vehicle/fleet maintenance, staff augmentation and engineering services on US overseas military bases.

We operate bulk fuel storage facilities and provide alongside aircraft fueling services. We deploy and install electrical engineers and provide turnkey power solutions in the most austere environments.

### US DEPARTMENT OF DEFENSE

- Multi-year, multi-billion dollar indefinite delivery indefinite quantity (IDIQ) multiple award task order contracts (MATOC) to support global contingency, humanitarian assistance, combat terrorism, and disaster operations requirements
- Provide turn-key mission critical services in contingency planning & engineering, airfield operations, power and fuels operations and maintenance

**Our technicians, mechanics, engineers and other personnel operate globally on every habitable continent.**

### US DEPARTMENT OF STATE

- Multi-year, multi-billion-dollar indefinite delivery indefinite quantity (IDIQ) multiple award task order contract (MATOC) to support global diplomatic missions requirements in contingency (high-threat and austere) environments
