TECHNICAL EXPERTISE.  
GLOBAL IMPACT.

## FUELS SERVICES

LBS supports the development of new fuel terminals and pipelines and provides turnkey delivery and operations of fuel storage, bulk fuel products, fuel issue and inventory, and fuel system maintenance.

## OUR SERVICES

LBS designs, builds, owns and operates bulk and retail fueling facilities for both military and commercial applications and is able to address the complexities associated with dual product designs for these facilities.

### GOCO / COCO OPERATIONS & MAINTENANCE

- Government-Owned Contractor-Operated (GOCO) / Contractor-Owned Contractor-Operated (COCO) Operations & Maintenance
- O&M of fueling facilities including bulk storage terminals, bulk and retail refueling terminals, and distribution systems
- Hot and cold refueling of full range of fixed and rotary wing aircraft

### RMMR SERVICES

- Military fuel facility inspections and maintenance planning for US based installations across all services
- Routine Maintenance and Minor Repair (RMMR) of equipment and associated facilities Emergency service orders to perform repairs identified during inspections

### COMMERCIAL FUEL OPERATIONS

- O&M of commercial fueling facilities including bulk storage terminals and distribution systems
- Fuel inventory management and fuel accounting services
- In-to-plane aircraft refueling services
